

Lab - Investigate BIOS or UEFI Settings

Introduction

Name: Will Stuart D. Ponce Jr.

Section: CPE11S1

In this lab, you will boot the computer, explore the firmware setup utility program, and change the boot order sequence.

Recommended Equipment

- Computer with or without operating system
- Motherboard manual

Instructions

Part 1: Enter BIOS or UEFI.

Step 1: Power on the computer.

- a. Plug the power supply cable into an AC wall outlet.
- b. If there is a power switch on the power supply, set the switch to “1” or “on”.
- c. Turn on the computer with the power button on the front panel.

Note: If the computer beeps more than once, or if the power does not come on, notify your instructor.

Step 2: Enter the firmware setup program.

During POST, press the firmware setup key or key combination. The firmware setup utility program screen will appear.

Questions:

What is the key or combination of keys used to enter the firmware setup utility program?

Key combination of my pc is **F1, F10 ,F11, F12**

Who manufactures the BIOS or UEFI system for your computer?

BIOS

What is the BIOS or UEFI version?

P03 Ver.02.39 11/17/2021

Part 2: Explore the Settings.

Step 1: List the main menu options.

Question:

List the main menu options and describe what is monitored in each menu?

First is main and next is security and advanced UEFI Legacy

Step 2: Find the security settings.

Navigate through each screen to find the security settings.

Question:

What security settings and features are available?

Administrator tools, Security Configuration, Utilities

Step 3: Find the CPU settings.

Navigate through each screen to find the CPU settings.

Questions:

What is the CPU speed?

3.49 Ghz

What other information is listed for the CPU?

Utilization, Speed, Processes, threads , Handles

Step 4: Find the RAM settings.

Navigate through each screen to find the RAM settings.

Questions:

What is the RAM speed?

16.0GB

What other information is listed for the RAM?

Processor, Installed Ram, System type

Step 5: Find the hard drive settings.

Navigate through each screen to find the hard drive settings.

Questions:

What information is listed for the hard drive?

Save/Restore GPT of System Hard Drive

Drive lock/Automatic Drive lock

Secure Erase

Allow Opal Hard Drive SID Authentication

Step 6: Find the boot order sequence.

Navigate through each screen to find the boot order sequence.

Questions:

What is the first boot device in the boot order sequence?

F1

How many additional devices can be assigned in the boot order sequence?

Only 2

Step 7: Set the device boot order settings.

- a. Ensure that the first boot order device is the optical drive.
- b. Ensure that the second boot order device is the hard disk drive.

Questions:

Why would you change the first boot device to the optical drive?

Because if you didn't change optical drive first they will be a little bit a problem working in the pc.

What happens when the computer boots and the optical drive does not contain bootable media?

It will not open the screen of your pc or a video or anything within the bootable media.

Step 8: Find the power management setup or ACPI screen.

Navigate through each screen to find the power management setup screen, or ACPI screen.

Question:

What power management settings are available?

EIST, Turbo Mode.

Step 9: Find the PnP settings.

Navigate through each screen to find the PnP settings.

Question:

What PnP settings are available?

Reset Configuration Data, Bios Default Settings.

Step 10: Find the splash screen settings.

Navigate through each screen to find the splash screen settings.

Question:

What splash screen settings are available?

Quiet Boot, Display option.

Step 11: Save and exit the setup utility program.

Save the new BIOS/UEFI settings and exit the setup utility program. The computer should restart automatically.

Note: An error message stating that an OS cannot be found (or a similar error) will appear on the screen after the computer boots. An operating system must now be installed to prevent this error. It is safe to turn off the computer at this time.

This lab is complete. Please have the instructor verify your work.
